

Czech glaucoma society

President
Mr. Marek Fichtl

Dear Mr. President!
Dear Colleagues!

First of all let me personally and from all Ukrainian ophthalmologists to express my gratitude for sympathy, empathy of our misfortune and desire to help us. I do not want to tell you a lot about the terrible situation, ruined houses, great stream of people running out from bombe cities and houses, cry, death and blood ... It is real hell ! And this HELL is RUSSIAN PEACE...

Thanks God we are obtaining some humanitarian aid with materials for urgent surgery from ESCRS, COS and others.

Now we are thinking how to support our ophthalmologists, who now lost their job?

How we will live in postwar period, because a lot of medical hospitals with modern equipment and ambulances are compleatly ruined ...

How we will take care about our glaucoma patients ?!

How we will start to work in empty place?

So, I would like to ask you to find the possibility to help us with:

- some sets of instruments for caratacta surgery,
- some sets of equipments for glaucoma diagnoses and monitoring of glaucoma patients (tonopen, hand slip lamp and perimeter) !

It will be great help for for us to reestablish everything ?

I am sure that this time will become !

Best wishes ,
Zoya Veselovskaya

Academician of NAMS of Ukraine,
Prof., MD, D. Med Science,
Chief of department of
Kiev Medical University,
President of Ukrainian Glaucoma Society
